**Report on Field Visit to Bhimashankar Wildlife Sanctuary**

<b>Sr. No.</b>	<b>Item</b>	<b>Particulars</b>
1	Date	10/10/2019
2	Name of Event	Field visit
3	Venue	Bhimashankar Wild life Sanctuary
4	Time	7:00am to 08:00pm
5	Duration of the programme	One Day
6	Source of Financial Assistance	Self
7	Name of resource person	-
8	Number of participants	22 Students + 03 staff
9	Copy of the programme	-
10	Curricular/Co-Curricular/Extra-Curricular	Academic & Extra- Curricular
11	Activity belongs to Which Criteria of NAAC	IIIrd

As the syllabus of Savitribai Phule Pune University, the field visit is compulsory for S. Y. B. Sc & F. Y. B. Sc. students for the actual field and practical knowledge. The field visit was organized to Ahupe on 18 October 2022. Through this, the students were exposed to rich faunal diversity of Northern Western Ghats of Maharashtra, India. The field visit was planned for one day under the head Department of Science Dr. S. M. Jagtap.

The journey started from Sahebraoji Buttepatil Mahavidyalaya, Rajgurunagar to Dimbhe dam reached around 8.30am. The dam area showed rich biodiversity of aquatic fauna especially fresh water fishes, arthropods and molluscs. A short biodiversity study was done by the students there Photographs of interesting specimens were taken. Students had a refreshing time enjoying the dam area.

After around an hour, the journey continued towards Bhimashankar, which was the final destination. Bhimashankar Wildlife Sanctuary has an area of 131 km<sup>2</sup> and is a part of the Western Ghats (Sahyadri Ranges), which itself is recognized as one of the

12 biodiversity hotspots of the world. The sanctuary was notified by the state government of Maharashtra in 1985 with the total area of is 130.78sq. km., under the Wildlife Protection Act 1972. The sanctuary harbours large diversity of endemic & specialized flora and fauna. Sanctuary is home to the state animal of Maharashtra- *Ratufa indica elphistonii*, sub species of the Indian Giant squirrel that is one of three threatened Indo-Malyan squirrel species. The huge diversity of fauna of Western Ghats, Maharashtra various Insects, Crustacean, Lepidoptera, Molluscs, Avian fauna, Arthropods (Millipedes and Centipedes) and Giant Squirrel (*Ratufa indica*) were observed and taken photographs.

After an successful field visit all of us returned at Mahavidyalaya Campus and then dispersed. The tour gave a good exposure to biodiversity for everyone and was a good study experience.
