As the syllabus of Savitribai Phule Pune University, the field visit is compulsory for S. Y. B. Sc & F. Y. B. Sc. students for the actual field and practical knowledge. The field visit was organized to Ahupe on 18 October 2022. Through this, the students were exposed to rich faunal diversity of Northern Western Ghats of Maharashtra, India. The field visit was planned for one day under the head Department of Science Dr. S. M. Jagtap and Prof. D .R. Borhade.

The journey started from Sahebraoji Buttepatil Mahavidyalaya, Rajgurunagar to Dimbhe dam reached around 8.30am. The dam area showed rich biodiversity of aquatic fauna especially fresh water fishes, arthropods and molluscs. A short biodiversity study was done by the students there Photographs of interesting specimens were taken. Students had a refreshing time enjoying the dam area.

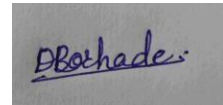

The visit later continued to Ahupe Ghat, which was the final destination. After enjoying the nature and natural resources everyone had lunch together.

A detailed survey of the fauna was done later. A huge diversity of fauna of Western Ghats, Maharashtra various Insects, Crustacean, Lepidoptera, Molluscs, Avian fauna, Arthropods (Millipedes and Centipedes) and Giant Squirrel (*Ratufa indica*) were observed and takes photographs.

After around an hour, the journey continued towards Malin village. The old village of Malin which was destroyed by landslides, a few years back, remained secluded from the surrounding areas as not much inhabitants could be observed. A memorial for those who lost their lives in that natural disaster was visited. Later, the group surveyed the area and observed different organisms.

After a successful field visit all of us returned at Mahavidyalaya Campus and then dispersed. The tour gave a good exposure to biodiversity for everyone and was a good study experience.
