Subject - Requesting you to grant permission for visiting your Research Institute

Respected sir,

As per Savitribai Phule Pune University syllabus the students of F.Y.B.Sc. and S.Y.B.Sc. Botany and Zoology has one day Institute Visit to ICAR- directorate of onion and Garlic Research Center ,As per your mail received, the visit is schedule on 21/03/2025 at 10.00 am .

We request to kindly grant permission to visit your institute ,it will turn an ideal way for the students to sharpen their plant tissue culture technique and knowledge in their field which also would help in boosting their career.

Yours Faithful,

Dr. H. M. Jare

Subject – Thanks Letter

Respected Sir,

Our college is thankful for knowledge and information given by you and your Research Centre, this will help our students to know advance methods of plant Tissue Culture Techniques and Agricultural Pest Management.

Thank you very much.

VISIT REPORT 2024-25 Term II

The students of F.Y.B.Sc. and S.Y.B.Sc. (Botany and Zoology), along with faculty members, visited the ICAR – Directorate of Onion and Garlic Research Institute, Rajgurunagar, Pune on 21st March 2025 at 10:00 am. The visit was conducted as part of the Savitribai Phule Pune University syllabus, which emphasizes the importance of practical exposure to support theoretical learning.

The main purpose of the visit was to provide students with insights into plant tissue culture techniques and research activities in the field of onion and garlic cultivation. The visit served as an excellent opportunity for the students to connect classroom knowledge with real-world applications in agricultural science and biotechnology.

During the visit, the students were introduced to the ongoing research projects at the institute. They observed demonstrations of plant tissue culture and learned about its applications in crop improvement. The experts at the institute explained how advanced research contributes to enhancing yield, disease resistance, and overall agricultural sustainability. The interaction with scientists also helped the students understand the practical challenges and innovative solutions in the field of agricultural research.

The visit turned out to be highly beneficial, as it not only sharpened the technical knowledge of the students but also motivated them to consider research-oriented careers. It broadened their perspective on the role of biotechnology in agriculture and highlighted the significance of research institutes in driving innovation and food security.

In conclusion, the one-day visit to the Onion and Garlic Research Institute was a valuable learning experience. It bridged the gap between classroom learning and field applications, enriched the students' understanding of plant sciences, and contributed to their overall academic and professional development.
